This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFATORY NOTE

This List is printed as manuscript to meet an immediate call for references on railroad valuation. The subject was found to be so interwoven with that of railroad capitalization that it proved inexpedient to separate the two. The List therefore includes both subjects, with emphasis only on railroad valuation. The material scattered through the various state reports is of increasing importance in the issues for the more recent years. No attempt, however, has been made to index it in detail. A few works on the economics of railroad construction have been included because of their relation to the subject.

Bill to prevent overcapitalization of railways.

United States. *Congress. Senate. Committee on interstate commerce.* Regulation of railway rates. Digest of the hearings before the Committee on interstate commerce, Senate of the United States; held from December 16, 1904, to May 23, 1905, inclusive, together with certain data. Comp. by order of the committee by Henry C. Adams, statistician to the United States Interstate Commerce Commission, and H. T. Newcomb. December 15, 1905.

Washington: Government printing office, 1906. 811 pp. Tables. 8°. (59th Congress, 1st session. Senate document 244.)

Reissue, with additional material of the edition of 1905. Contains items on the valuation and capitalization of railroads.

——— *Industrial commission.* Railroad finance and fiscal regulation: Present capitalization.

(*In its* Final report of the Industrial commission, vol. 19, pp. 397–419. Washington, 1902. 8°.)

——— *Interstate commerce commission.* First–twentieth annual report of the statistics of railways in the United States . . . 1887/88–1906/07.

Washington: Government printing office, 1889–1909. 20 vols. Folded maps. 8°.

Report year ends June 30.

——— *Interstate commerce commission.* Intercorporate relationships of railways in the United States as of June 30, 1906. Prepared by the division of statistics and accounts.

Washington: Government printing office, 1908. 516 pp. Diagrams. 8°. (Its Special report no. 1.)

Gives statistics showing the relation between active and inactive corporations and their holdings.

——— ——— Interstate commerce corporations owning capital stock of other transportation corporations. Letter from the chairman of the Interstate commerce commission, transmitting statements in response to a Senate resolution of January 13, 1908.

[*Washington: Government printing office, 1908.*] *114 pp. Tables. 8°. (60th Congress, 1st session. Senate document 278.)*

United States. *Interstate commerce commission.* Preliminary report on the income account of railways in the United States.

Washington: Government printing office, 1896-1907. 11 vols. in 4. 8°.

Published also in the Annual report of the Interstate commerce commission.

——— ——— Railways in the United States in 1902. Part V. State taxation of railways and other transportation agencies.

Washington: Government printing office, 1903. 462 pp. 4°.

——— ——— Stockholders in certain railways on record June 30, 1904. Letter from the Interstate commerce commission transmitting, in response to the Senate resolution of January 24, 1905, a statement showing for each railway reporting to the commission the number of stockholders on record June 30, 1904.

[*Washington: Government printing office, 1905.*] *10 pp. 8°. (58th Congress, 3d session. Senate document 188.)*

——— ——— Stocks, bonds, etc., subject to the act to regulate commerce. Letter from the chairman of the Interstate commerce commission transmitting its report in answer to a Senate resolution calling for certain information in regard to the stock, bonds, car-trust certificates, etc., of each railroad company subject to the act to regulate commerce, etc. February 24, 1903.

[*Washington: Government printing office, 1903.*] *5 pp. 8°. (57th Congress, 2d session. Senate document no. 178.)*

——— ——— Valuation of railroad properties. Report of Interstate commerce commission on the bill (S. 501) to amend an act entitled "An act to regulate commerce," approved February 4, 1887, and all acts amendatory thereof, and to enlarge the powers of the Interstate commerce commission. March 25, 1908. Series no. 6.

Washington: Government printing office, 1908. 10 pp. 8°.
